# Document Summary

The Prioritized Standards for the SC-Alt Online Assessment in English Language Arts were developed to provide guidance to teachers for including students with significant cognitive disabilities in challenging academic instruction. This document is intended to make the general education indicators and the range performance level indicators useful for classroom instruction and assessment test development. In 2015, the South Carolina College- and Career-Ready Standards were published. That document, which sets forth the state's academic standards for general education in the English Language Arts, served as the basis for the state's alternate assessment prioritized standards in English Language Arts. All of the prioritized academic standards that appear in this document have been selected from the March 2015 standards document.

The prioritized standards and performance level indicators preserve the essence of the grade-level expectations but may be restricted in scope or complexity or may take the form of introductory or prerequisite skills to the grade-level standards. The intended purpose of this document is to guide special education teachers in linking their classroom instruction to the state academic standards and to provide specific content to developers of the developers of the SC-Alt Online Assessment.

Teachers should be familiar with the South Carolina College- and Career-Ready Standards for English Language Arts, which set forth the state's academic standards, if further definition or content information is needed.
